

With the Oil Men

Arthur Lipp, of the Sinclair Oil company, is back from Bella Vista, Arkansas, where he spent a couple of days and comes back much refreshed as regards the beauty of the country over there. He made the trip in nine hours and thirty minutes, having lost an hour on account of the trouble and three-quarters of an hour for lunch. He says people are enjoying the good weather in the Ozarks and that the country ought to be better advertised.

Among the expected arrivals this morning are G. A. Foreman, of the Southwestern Petroleum company, formerly of Oklahoma, and Foreman, who is on his way here from Buffalo, his home town, and F. M. Kelly, of the Kelly Oil & Gas Co., who may join his son and make the trip to Wyoming by way of Colorado overland. The hotels are doing a record business and reservations are being made long in advance. The cool weather of yesterday made life quite bearable. In fact, it is doubtful if any of the newcomers in the mountains are enjoying better weather.

W. J. Allen has a letter from Albert Brown, in Los Angeles, stating that he was expecting his daughter, Mrs. Callahan, and her daughter, little Mary Elizabeth, and that he was consequently a very happy grandfather.

In the Oil Fields

Texas Production

By PHILETUS MOORE.

DALLAS, Texas, July 15.—Oilers are still the order of the day in the central Texas deep sands, although the north Texas pool, Burkburnett, is temporarily under orders from the state to shut down drilling on account of over-production of light oil.

At Ranger today the Prairie Oil & Gas Co.'s No. 3 Roper is in and flowing 4,000 barrels.

The States Oil corporation's Turner No. 3, same pool, is flowing 1,000 barrels.

At Deadwood, Humble Oil & Refining Co.'s No. 1 Ellison is flowing 2,000 barrels.

Gulf Production company's No. 2 Prater is flowing 800 barrels.

Estimated output of the various light oil pools today is as follows: Ranger, 85,000 barrels; Deadwood, 35,000 barrels; with five thousand barrels more shut in; Stephens county, 35,000 barrels; Burkburnett, 65,000 barrels; and 30,000 barrels more shut in; other north Texas oil, 15,000 barrels.

Total Texas light oil daily 209,000 barrels produced and 35,000 barrels shut in, shut in oil consisting largely of wells at Burkburnett shut down on top of sand.

Mid-Continent Association Holds Meeting

The Mid-Continent Oil and Gas association held a meeting yesterday afternoon in their rooms in the Coaden building to perfect their organization of the Kansas and Oklahoma division of the association. There will be another meeting soon.

New Machinery and Supply Company

The Rex Machinery & Supply Co. has just opened its main office in the Coaden building. This company has but recently been organized and is backed by both eastern and Tulsa capital.

C. W. Lord, who was formerly the Mid-Continent representative for the Lucey Manufacturing corporation, is president and general manager of the new company, and is already well and favorably known in Tulsa. Mr. Lord has just returned from a trip east, where he completed arrangements for handling every commodity used on an oil derrick. The new concern will also handle a full line of the Lucey Manufacturing corporation products.

The main warehouse will be located in Tulsa, with branch warehouses throughout the state. Supplies are now coming in and the warehouses will be opened and in operation within another two weeks. A corps of salesmen has been employed to cover the state and indications are that the new company

"Vern" Brown from the Garber and Hillman field, was in the city yesterday on business.

Eldon Lowe, for many years with the government Indian office at Muskogee, who is in charge of this district, with an office in the Federal building, is in the city on his regular weekly visit.

James K. Crawford, of the Oklahoma Petroleum and Refining Co., is at Atlantic City, and is expected home about Sunday or Monday.

H. C. Mulroe, traffic manager for the Marland Refining company, having succeeded A. E. Sweet, is in the city and is being shown around by Sam Collins, the popular sales manager of the same concern.

Bobbie Sharp, with the General American Tank Co. company, is in the city and says there is a greater shortage of tank cars than any time in the history of the business. "Business is unusually good, in fact, far beyond our expectations," said Mr. Sharp.

Minister to Norway Back.
NEW YORK, July 15.—Alfred G. Schmedeman, United States minister to Norway, arrived today on the Norwegian steamer Stavangerford from Bergen.

will soon be able to relieve some of the stringency due to lack of tools and oil well supplies.

Skinner and others No. 1 Nelson in the southeast of the northeast of 32-22-4 is shut down at 1,300 feet.

The National Refining company No. 1 in the southwest of southeast

Over the Top and Then Some

"I never felt better in my life than since taking the first dose of Mayr's Wonderful Remedy. I had a bad case of indigestion and bloating and tried all kinds of medicine. Mayr's Wonderful Remedy is all and more than is claimed for it. On my recommendation our postmaster's wife is using it with good results." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.—Adv.
